CULTURE & TECHNOLOGY

MIASM
Human Genome Project – NIH 1990-2003

EPGENETIC
Human Microbiome Project – NIH 2005

10% of disease is genetic = miasmatic disposition
90% of disease is epigenetic = ability to control our health

EPIGENETIC

"relating to, being, or involving changes in gene function that do not involve changes in DNA sequence”
Merriam Webster

NUTRITION

Our ancestors’ diets - dictated by food availability
The 2018 diet - dictated by commercial manufacturing
Direct correlation between diet and the body’s production of chemicals that govern inflammation

Autoimmune disease (allergies, asthma)
Neurologic disorders (ADD, ASD)
Obesity, Type 2 diabetes
Heart disease, Cancer
Environmental toxicity
Anxiety & depression

NUTRITION

“All disease begins in the gut.” – Hippocrates

Poor diet can lead to microbiome imbalance
Malabsorption of vitamins
Imbalance of hormones
Deficiency in enzymes

The hundred trillion bacteria that live within your gut are intimately involved in your brain
**NUTRITION**

**GUT / BRAIN HEALTH**
Microbiome - critical to the function of the brain-gut axis
- Gut microbes modulate serotonin production
- Serotonin - key neurotransmitter for the enteric brain
  - Brain – 10%
  - Gut – 90%
Serotonin - precursor for melatonin
- Dopamine
- Acetylcholine
- GABA

  - Brain – 10%
  - Gut – 90%

**CIRCADIAN RHYTHM**

Predictable pattern of deep, restorative NREM sleep
More alert, dreaming REM sleep
- NREM: first half of the night
- REM: later half of the night
REM & NREM: predictable, complete sleep cycles
repeat throughout the night
Night progresses NREM > REM sleep

**LED AND SLEEP**

**BLUE LIGHT IS NOT FOR NIGHT**

Screens illuminated by LED: blue light & chemicals make it look white
Night time exposure to LED illuminated devices
suppress melatonin & disrupts circadian rhythm

Sleep cycle disruptions mood & behavioral problems

**LED AND SLEEP**

*Light is the most powerful cue for shifting phase of the circadian clock*

Light suppresses melatonin
Light in the early evening causes a circadian delay & resets the clock to a later schedule

Light in the early morning causes a circadian advancement & resets the clock to an earlier schedule
**EPGENETICS**

**SCREENS**

“The Medium is the Message”
1964

“We become what we behold”

**EPGENETICS**

**SCREENS**

**EPGENETICS**

**TOXINS**

TENDR call for action
(Targeting Neurodevelopment Risks)

**EPGENETICS**

**STRESS**

MAJOR EPGENETIC TRIGGER
